Portraits of you doing the things you love to do.

Whether you like to go for quiet walks in the park, play with your kids at the playground, or run marathons, these interactive and fun sessions are custom tailored to you and your lifestyle. I will make some posing suggestions as we go, but these sessions are generally free flowing and I'm always open to your ideas of where to go and what to do. These sessions are done at an outdoor location of your choice (I can suggest some great spots).

Studio Portrait Session - \$200 *

Sometimes you want a more traditional posed portrait in a studio setting. I can do these sessions in my home studio or at a location of your choice using portable equipment.

These sessions are studio sessions that are done in my home studio. All of the images will be created on a pure white background.

Canvas Gallery Wraps are the highest quality presentation for your images.
